

AFTERSCHOOL PROGRAM COORDINATOR LEVEL 1

The Coordinator should be aware of all activities, making sure teachers have what they need. In some schools, the teachers are responsible for copying, printing and laminating for their own classes. In other schools the coordinator may be responsible for getting materials ready. In that case, keep a close progress record for each class level.

Also, things like the “Going to Tick Tock” Chart needs to be laminated and attached to every computer being used for the Anybody Can Play PIANO app.

If the school wants to send parents information about the app, the type of activities the students are doing, things parents can do at home to enhance the learning process.....just contact Karla Crossett if you need some info.
