

Lev.3

This musical shape is called a
TREBLE CLEF.

The word treble in music means
higher pitched sounds so it stands
in front of the notes that are mostly
for the keys on the right half
of the piano....and,
mostly played
by our
right hand.

Maybe
review R.H.
finger colors?!

Lev.3

Treble Clef also
has another name:
G Clef because that
last swirl crosses a
line in written music
that goes through the
notehead of a particular
note that tells us to play
a certain key on the piano
whose name is G.

Lev.3

Cut Flashcards apart.

Cut around definitions.

Lightly glue proper definition to back side of appropriate flashcard.

Add these flashcards to those from Levels 1 and 2.

Show to students, giving them full definitions.

Have students define flashcards as soon as they are able.
