

TURN THAT NOTE INTO A REAL QUARTER NOTE

This is just a coloring activity so just use as is.

The children have been exposed to quarter notes.
Ask,
Are these notes alike? (You will probably get both yes and no.)
Are they EXACTLY alike?
Oh, one has an empty notehead.
Let's color that notehead so it is a proper quarter note.

Have black crayons or markers ready. We do want them to color the notehead the proper color.

You did a GREAT job - two quarter notes in a row!
