Cut around tiny half note flashcards.

Cut around definitions and glue lightly to back of the half note flash cards.
Laminate using credit card pouches.

...suggest 5mm

These little flashcards are for taking home to review and store in the little plastic box. (If you have decided to give the students tiny credit card sized materials.)

If they have lost their box, they pay for another box because they cost a dollar apiece purchased in quantity from Amazon.

CREDIT CARD EIGHTH NOTES

www.anybodycanplay.com
This is an eighth note.
It looks lilke a quarter note, but with a flag flying behind it!
These notes are twice as fast as a quarter note - run run run run run

www.anybodycanplay.com
This is an eighth note.
It looks lilke a quarter note, but with a flag flying behind it!
These notes are twice as fast as a quarter note - run run run run run

Make eighth note flashcards just like the half note flashcards.

CREDIT CARD HALF AND EIGHTH NOTE FLASHCARDS

When presenting new information it is good to have something the children can take home to review what they have heard. It is also good in the case of preschool lessons where a parent is not usually present that the children can take home something and explain what it is to their parent.

Do you remember what this is?
It is a half note. What do half notes do?
walk wait walk wait walk wait
I am going to give you another little flash card for you to put into your little plastic box. Remember, I said you need to keep that little box because we are going to fill it up with all sorts of cool little things.

Do you think you can explain to your mommy and daddy what this note is?
What is it?.....an eighth note!
And what do eighth notes do? Run run run run run
The part of Hot Cross Buns with the words
“One a pen ny two a pen ny” are eighth notes
when we see the song in notes.

Remember those little cartoon notes on the computer?
(If they don't seem to remember, go to the computer and look so they are aware of the funny looking arrows that show what kind of notes each key is.)

Look....the “buns” word is a half note! Maybe go through the entire song looking at the funny notes and arrows.
