

GIANT HALF NOTES

Cut a shape around each note.

Laminate, then cut around your shape about a quarter to half inch away.

These are called half notes.

They just walk **wait** walk **wait** walk **wait**.....

They look just like quarter notes except they have an empty note head!

And, like the quarter note, they can be right side up or upside down!

Remember, this is called what? the note head

And this is called? the stem
