

## DRAW THOSE NOTES

This is a tracing exercise as well as “finishing” those notes.

The first note needs to be a half note so just start at that little dot by the red star shape and go around the note head first, then up the stem. It's done - looks like a half note.

The second note needs to be a quarter note.

First make it into a half note.

Then....? color in the note head.

You have a quarter note.

The third note needs to be an eighth note - you can tell by that flag!

First make it into a half note, then a quarter note, then add the flag and you have an eighth note!

**CONGRATULATIONS!**
